

## **Morning Production Crew**

*June-August, 25 +/- hrs/wk*

### **About Cedar Circle Farm and Education Center**

Cedar Circle Farm & Education Center is a nonprofit, certified organic farm located on over 50 acres of conserved land along the Connecticut River in East Thetford, Vermont. Our organization has a deep commitment to developing regenerative agriculture systems for our annual vegetable and flower production and to offering educational programming that builds connections between our food, ecosystems, and community. Our farm is a community hub with a farmstand, retail greenhouses, a farm kitchen, a coffee shop, a cut flower garden, education programs, and unique CSA options. It's a place where folks can learn about and deepen their appreciation for organic regenerative agriculture.

Our staff is a reflection of our community and is the most essential aspect of our farm. When you join our dynamic team, you'll have the opportunity to make valuable contributions to our greater mission of promoting organic, regenerative farming and the transition to a localized food economy!

### **About the Position**

The Morning Production Crew is responsible for harvesting fruit and vegetables on the farm as well participating in other farm activities including planting, weeding, watering and learning. Spend a half day working with the farm team while having ample time to enjoy the rest of your summer! If you are willing to learn, work hard, and enjoy being outside, this is a great summer job!

Applicants must be at least 15 years old on their first day of work. Must be able to perform repetitive tasks while standing or kneeling. This position requires working five days a week – which includes occasional weekend work. Preference is given to applicants who can start work as soon as school ends or before (strawberry harvesting on weekends is available before school ends in June). This is a great opportunity for high school and college students who are home for the summer.

### **Compensation**

This is a seasonal position, 25+/- hours per week from June through August. The morning production crew member is an hourly position with benefits including sick time accrual, fresh produce, and a discount to our farm stand. Salary is \$14-17/hr depending on work experience and ability to operate farm vehicles on and off the road.
